NO DEATHS—NO SERIOUS WRECK OVER WEEK END

Excellent Record Is Set On County Highways For Holiday Period

Labor Day week end has come and gone—without a traffic fatality or even a serious accident in San Mateo County. The absence of crashes and road deaths was in sharp contrast to the Labor Day week end of last year when five persons were killed and more than a score badly hurt.

Three persons were only shaken in minor collisions in San Mateo and a house was damaged when struck by a runaway automobile.

Mr. and Mrs. Lawrence Cook, Daly City, were cut and bruised when their car upset at Daly City Sunday after a collision with a car driven by George Harden, Martinez.

George Preston Devore, 50, of San Jose was cited for hit-run and reckless driving near South San Francisco.

The historic flagpole was to be razed and removed to a site prepared by the city of Redwood City.

Stone masons were at work on the steps, which will be sent to a South San Francisco stone cutter to be refinished for use in the new annex.

All of the trees on the courthouse plaza have been felled or transplanted. Only two small palms were saved.

Work on the foundations will get underway in earnest next Tuesday, when a steam shovel wil be moved in to excavate six feet for the footings of the annex.

Local Sea Scouts Place In Regatta

Ship 149 achieved notable success in the annual Sea Scout Regatta, which officially ended last Monday.

Saturday, members of Ship 149 sailed to Alameda and up the Estuary to the scene of the Annual Northern California Sea Scout Regatta. Many ships, representing other localities, were already there and individual camp sites had been provided on shore for each unit.

A dance, preceded by a dress parade, was the highlight of Saturday activities.

SUNDAY EVENTS

On Sunday, real sea scouting got under way, with many varied competitions. Four boys from Ship 149 entered in the signaling and rowing events. Ship 149 placed eighth out of 25 entries in the rowing event. Lack of wind in the estuary practicaly nullified the sailing race.

On Monday morning, ratings for all participants in the annual regatta were announced. Ship 149 had been awarded a Class B rating, the highest possible for them to receive in accordance with their present equipment and experience. Ratings of A, B and C were given.

Participating in the regatta were: Ronald Cameron, Bob McCahon, Phillip Boyle, Wallace Bellando, Ray Humphrey, Ray Welch and Evan Gillespie. The mates were Jow Nelson and Bill Bellando. Officer in charge was W. H. Riordan.

The boat, "Clipper," which had so well represented Daly City in the northern California regatta, was then sailed back to Yacht Harbor.

BANKHEAD'S HIT OPENS SEPT 12 FOR TWO WEEKS

Curran Theater Signs For Production Before It Returns To N. Y.

Tallulah Bankhead's new play, "I Am Different," authored by Zoe Akins from the Hungarian of Lili Hatvany, will be given an auspicious opening at the Curran Theater on September 12 by Lee Shubert and Jos. M. Gaites.

The play, which will have a limited two-week engagement with matinees on Wednesday and Saturday, is headed for New York where it will open the fall theatrical season on Broadway.

EUROPEAN SETTING

The complete cast, 17 in all, have been brought to San Francisco from New York especially for this production. The setting of the new comedy is a cosmopolitan city in Central Europe and its thrilling story centers around a woman who, though she solves the heart problems of others, finds it extremely difficult to solve her own. Miss Akins, author of "The Old Maid," which won the Pulitzer Prize for 1935, says it is full of delightful comedy and sparkling wit, for which Tallulah Bankhead is famous.

"An all-star cast," a phrase often used by motion picture exhibitors but rarely seen on the footlights, actually describes the distinguished supporting players. Heading the company is Fritzi Scheff, the darling of theatergoers for the past two decades. She is probably the only actress who is equally at home in grand opera, light opera, musical comedy,

Present Popular Symphony Concerts

The Federal Music Project's inauguration, Tuesday evening of last week of "Everybody's Symphony Concerts" in the Civic Auditorium, proved an overwhelming success.

The house completely sold out and the gay festive air prevailing throughout this concert showed that the dream of Dr. Alfred Hertz, Director, Northern California, and Mr. Homer Henley, Bay Region Supervisor, could be made to come true. Dr. Hertz and Mr. Henley not only visualized the enormous future importance of such concerts, but found the way to put them into immediate practical realization.

The second program of this series will take place in the Civic Auditorium, Tuesday evening of next week at 8 p. m. It is expected that the thousands of music loving cosmopolitan San Franciscans, who at the last concert stormed the ticket offices at 6:30 to gain admission not to miss the opportunity of being present at such a stupendous spectacle, will again fill the house to capacity.

PREPARE PLANS FOR NEW LOCAL GRADE SCHOOL

Safe Structure For Grammar Children Must Be Had Say Citizens

Plans for a new one-story earthquake and fire proof structure to replace the hazardous Woodrow Wilson School No. 1 and demands from citizens that children be housed safely and adequately came simultaneously this week to the desk of R. L. Crane Jr., superintendent of the elementary school district.

Only a month ago state authorities condemned the 21-year-old Woodrow Wilson School Building, decaring it an earthquake and fire hazard. The school board immediately called a pubic meeting to relay the information to local citizens. A resolution was passed at the mass meeting suggesting that the board call a bond election to build a new school.

Bond election date has been set for Wednesday, September 21. Polls located at Woodrow Wilson School will be open from 6 a. m. to 7 p. m.

If the bonds carry it is possible that a WPA grant in the amount of 45 per cent will be available to pay that portion of construction costs.

COUNTY BOARD SETS TAX RATE ONE MILL LESS

Major Changes In Two Items S. M. Jaysee And County Library

The board of supervisors this week set a basic county tax rate of $1.144, only a mill under last year's rate despite the fact that tentative estimates had place the rate below $1.12. While there was no change in the budget, it was explained, the official computation by the controller's office of the tax rates necessary revealed that a forecasted cut was largely due to errors.

Major change came in two items: Junior College Tuition Outside, a rate previously figured at .079, and raised to .090; and the County Library rate, previousy in at .011 and raised to .012. Both changes according to the controller's office, resulted in alterations in assessments of operative property by the State Board of Equalization.

It was explained that the previously announced rates were purely tentative. Another factor in raising the rate from estimated lows was the fact that the controller's office figured general fund levies to four places. The fourth place figured had been lopped off the low estimate.

FHA Makes Possible Small Down Payment

Monthly payments of approximately six dollars for each thousand dollars borrowed now will pay for a home under the new terms of the FHA insured mortgage system, it was declared at the Northern California district office of the Federal Housing Administration.

The down payment need not be more than 10 per cent of the appraised value of house and lot, under recent amendments to the Housing Act. The remaining 90 per cent, financed by an insured mortgage, is payable in monthly installments over any convenient period up to 25 years.

Under new regulations, it was pointed out, a home valued at $5000 may be acquired with a down payment of $500, in cash or title to a building lot of that value. An insured mortgage for the remaining $4500 could be amortized by payments of approximately $27 a month, including interest, mortgage insurance and a sufficient slice of the principal to completely wipe out the entire indebtedness.

Cardinal Hayes Lies In State

Patrick Cardinal Hayes

Patrick Cardinal Hayes of New York City, whose body was taken to St. Patrick's Cathedral, in New York, where it has lain in state until today, after which it will be placed in a crypt under the altar. The famous prelate died in his sleep. The death of Cardinal Hayes reduced the College of Cardinals to 65 members. Two days later Camillo Cardinal Laurenti, prefect of the sacred congregation of rites, passed away in Rome, lowering the College to 64. Cardinal Laurenti was elected Pope in the conclave of 1921, but declined in favor of Cardinal Achille Ratti, reigning now as Pius XI.

SAFETY FOR SLOW DRIVERS

How fast is too fast? When you are driving, a safe rule to follow is to be sure that you can always stop within the assured clear distance ahead.

When accidents do happen, figures of the National Safety Council show, the higher the speed at which the cars were going, the worse the accident. At 20 miles an hour, one accident in 61 is fatal. Between 30 and 40 miles an hour, one accident in 35 is fatal. And at 50 miles and hour and up, **someone is killed in one out of every 11 accidents.**

In other words, if you have an accident while driving faster than 40 miles an hour, the chances of someone getting killed are more than twice as great as when you drive under that speed. How many miles an hour is your own or some other human life worth to you? —San Mateo County Traffic Safety Commission.

GAINING ON DEATH

During the first six months of this year, 3670 automobile deaths were prevented in this country! That is based on a comparison of motor vehicle deaths in the first half of 1938 as against the same period in 1937. The decline in fatalities that began last November carried through encouragingly into July.

So far so good. But, as the National Safety Council points out, "This is no time to quit in our fight for safety. This is just the beginning." We've won a partial victory. Unremitting effort on the part of every motorist, pedestrian, traffic judge and law enforcement officer is needed if the victory is to be ultimately complete.

Some of the most dangerous driving months lie ahead. Traffic during September is always heavy. And with the coming of the rains, snow and ice, plus the shorter daylight hours of fall and winter, motoring presents new and difficult hazards. There will be no time for standing still and praising past achievements in safety, until December 31 has passed, and the figures are all in.

A saving of 3670 lives is a magnificent thing. And it shows that traffic accidents, the pessimists to the contrary, can be sharply reduced. During the first half of this year, there was more and better organized community and state safety work than ever before. We have gradually learned that sporadic safety campaigns solve no problem, and that permanence and continuity of effort are vital. We are learning what courteous, "fixless" law enforcement can do. And we are also learning the excellent results that follow better traffic engineering and scientific traffic control.

You're one of the soldiers in this fight against death. The country needs your help. Keep up the good work—and make it still better.

TAKE YOUR PICK

Those who would overthrow or extensively change the capitalist system, use as their justification the common welfare—the well-being of the average man and woman.

In the light of that fact, some figures issued by the National Industrial Conference Board concerning Russia, where practically all business is owned by the government, and where private capitalism is completely unknown, are of exceptional interest.

Based in terms of United States currency, the annual income of the average Soviet worker in 1937 was $582. In that year, 1937, if he lived in the typical city of Moscow, he would have had to pay $4.37 for a pound of coffee. A pound of tea cost $10.21. A pound of bacon cost $1.45. A pound of first quality butter cost $1.81. A pair of good leather shoes cost $34.85. A woolen sweater cost $41.80. A cheap cotton shirt cost $7.74. One yard of heavy woolen cloth cost $29.26. A single linen towel cost $1.88.

How did the worker buy these excessively priced commodities out of his pitifully small income? The answer is simple—he didn't. Things that are regarded as the commonest necessities of life by any workman in this country, are untouchable luxuries to the Russian worker. The soviet standard of living is unbelieveably low. As responsible journalists have written, housing conditions, save for one or two government projects which can accomodate but a handful of the nation's vast population, are extremely bad. Ordinary clothing is cheap and inadequate, and is made of substitutes for wool, linen and leather. Good food is unobtainable. The "luxuries" can be possessed only by government officials, military officers and other members of the Soviet "aristocracy."

That's the difference between the average standard of living under capitalism and under communism or socialism. Take your pick.

NEVADA FAIR

Fallon will be a center of lively activity as scene of the annual Nevada State Fair, September 22-25. Fourteen Nevada counties will have exhibits on display, including farm products, semi-tropical fruits and livestock.

All of the Glacier National Park chalets and tent camps have been closed for the season, reports the touring department of the National Automobile Club. Accommodations will be available at points outside the Park as long as weather permits, but all accommodations under Park Service supervision have been closed.

To Widen El Camino Below Redwood

Provision for breaking the highway bottleneck on the U. S. 101 route between Redwood City and Palo Alto will be made in the next biennial budget of the state highway commission, a delegation from San Mateo and Santa Clara counties was informed this week.

H. R. Judah, chairman of the commission, said the work will not be postponed. Senator Harry L. Parkman, San Mateo, was spokesman. Other speakers in the delegation were Hugh Smith, San Mateo supervisor; Mayor Louis Christiansen of Redwood City, and Paul A. McCarthy. They said the mounting costs of rights of way make it imperative to start work soon. The widening of the four-mile portion is expected to cost $775,000 for rights of way and $495,000 for construction.

Cast Is Completed For Fiesta Pageant

The Peninsula Little Theater Group received credit this week from Director Lou Ashe for its co-operation in putting into shape the San Mateo County Fiesta pageant, "The Rise of Don Largo," which will be a nightly feature of the fiesta at Bay Meadows, September 21 to 25.

"Were it not for the whole hearted support of the Peninsula Little Theater Group," said Director Lou Ashe, "it would have been difficult to have lined up our pageant for this year's fiesta with as much ease."

HELP YOURSELF TO PROSPERITY

No matter how much the horn of plenty holds, some people never manage to get their share.

But the chap who knows what he wants and goes out after it is usually successful.

So it goes with cities, too.

Some cities never get out of the rut.

But the city that knows what it wants and works for it never gets left out when the prosperity checks are passed around.

Get this important point: You can't enjoy prosperity unless your home town is enjoying it. Farmers will tell you that you can't fatten a cow on sage brush. Your success is limited by your environment—every time.

Help your city to prosperity if you want to help yourself to it. Keep your money at home. Save some of it. Invest some of it in local enterprises. Spend the rest with home town merchants. They give you more for your money and return it to you by doing likewise.

Be a booster and a worker for civic prosperity. Sanction and advocate anything that will improve our city and that will make it a better place to live in, and attract outsiders and outside dollars to it.

A city that has the respect of its inhabitants commands the respect of everyone else.

We can't be self-respecting unless we are self-sustaining. Your job and ours is to sustain home town industry and business by trading at home and to attract outside dollars by a program of loyalty and progressive civic improvement. Prosperity in full measure will then come to each and every one of us as the day follows the night.

Rogers In Top Role Of High Comedy

Co-starring two of the screen's leading favorites, Ginger Rogers and James Stewart, "Vivacious Lady" offers a brilliant and up-to-date romance to film-goers. It is scheduled for the Daly City Theatre, starting on next Sunday.

The stormy love affair of a night-club entertainer and a studious young professor is the theme of this story, the action of which takes place in a sleepy little college town, in whose dignified atmosphere the heroine is astonished to find herself.

Stewart, as the young pedagogue, marries Miss Rogers, the entertainer, after a brief whirlwind courtship in New York City, and takes her back to Old Sharon. Fearing the stern tongue of his Puritanical father, who is also the president of the college, the boy hesitates to tell his family of the marriage.

Only Stewart's cousin, played by James Ellison, knows the truth, and he loyally tries to help out the couple. A series of complications, fostered by the determination of Stewart's boyhood sweetheart to marry the young man, and by Miss Roger's growing impatience with her husband's lack of decision, make up the interlocking crises of the story, with many hilarious situations piling high the entertainment values of the picture.

The demand for adult education in all of these subjects is increasing so rapidly that additional classes will be needed. In the Americanization group it is found necessary to add a class for adults who speak Italian and who want to learn English. This class will be organized on next Tuesday evening and all those who desire to join are invited to enrol at that time.

According to Principal James Ferguson, it is the purpose of the high school to serve the educational needs of the whole district in the fullest manner and he urges everyone interested to join these classes now.
